Public Hearing for David Irvine, Hill Road Subdivision. 96.-2-1, represented by Nancy Frisbey

The Irvines are selling their home and have a contract in place. They would like to parcel off the 5 acres that the house sits on and leave the remaining 113 acres in place for agricultural usage. Present road frontage is 170' straight into the property which would separate the two parcels. Permanent 25 ft wide easement for ingress and egress will be shared by the two parcels (47.64' by the 5 acre parcel and 44.85' by the 113 acre parcel). The attorney is awaiting verbiage from the surveyor to update the deeds.

The survey of the remaining lands of tax parcel 96.00-2-1 shows 124+/- acres. Mary Frisbey will confirm that is correct because tax rolls show 118 acres total.

Monica to send minutes to Nfrisbey.ereality@gmail.com. Nancy will contact Andy Stone (315-440-3413, 3671 Milestrop Rd. Canastota, NY 13032) to sign mylar copy and file map at the county.
